FOREWORD

The real Assets and wealth of our country we think is not gold or silver. The country possesses, but it millions of marginalized people who are the pearls of our motherland. This striving humanity as we have assesses, protect and save our motherland from draught famine, food, natural calamities and other disastrous incidents. By dint of their labour energy and enthusiasm, these people produce food in our agricultural field, manufacture garments, and work in industries as well as in cultivation. They are small and marginal, farmers, share-croppers, landless labour, vegetable, fish and meat vendors, rural artisans and so on who work from dawn to night to maintain their live hood.

They are the main source of strength of our organization. They are our friends,
Philosopher and guide. And our organization works with them an expectation to bring a 'Better Tomorrow ' for these down trodden humanity.

We are proud to bring out this Annual Report on our activities during the year 2004-2005. We want to gather strength and motivation from our well-wishers and patrons

We are looking forward to their continued support and also their continued guidance and suggestions on our activities and Co-operation in coming days in our efforts and struggle for helping the people in need to improve their soil-economic condition.
